

OSBORNE REFRIGERATORS

Model 420E & 430E

Osborne Refrigerators Ltd have been established at our West Sussex base for more than 50 years and we are the leading British manufacturer of refrigerators designed for the chilling and storage of wine and cold beverages. As well as our professional range of cabinets, which are specified by leading breweries, drinks manufacturers and leisure companies across the world, we also produce a range of high quality cabinets designed specifically for domestic use.

All our refrigerators use environmentally-friendly R600a hydrocarbon refrigerant (R134a available on request at additional cost), CFC free polystyrene insulation and can be efficiently recycled at the end of their life.

The Osborne range is always evolving, due to our commitment to constantly improve our products and also in response to specific customer requirements. We have built an enviable reputation for the quality and reliability of our refrigerators and we will never stop working to maintain that reputation.

Details

Models 420E and 430E are high capacity undercounter cabinets with an end-mounted unit for easy maintenance. Designed primarily for the storage and display of bottled beverages, these cabinets are also suitable for foodstuffs. Manufactured from rust resistant zinc-coated steel with a hard wearing powder-coat finish or brushed stainless steel, the interior is beaten aluminium or stainless steel. Insulation is efficient, ozone friendly polystyrene and the refrigerant used is R600a. The doors are double glazed and hinged. Black or silver finish is standard but can be supplied in a wide variety of RAL and Pantone colours (minimum quantities may apply) or stainless steel.

High Capacity Undercounter Cabinet Range

	Model 430E	Model 420E
H (mm)	905	905
W (mm)	1560	1110
D (mm)	570	570
Shelves (per door)	3	3
Cap. (ltr)	393	257
Technical		
Refrigerant	R600a - 120 grams	R600a - 90 grams
Power Rating	140W	120W

Features

- Fan assisted evaporator for rapid cooling
- Fan assisted condenser for efficient performance
