

# OSBORNE REFRIGERATORS LTD

## Details

### Model 460ES

External Dims – 1480 x 1200 x 550mm (HxWxD)  
Capacity – 430l (approx)

The new Osborne 460ES is a new retail-friendly chiller concept. The double door design gives a wide display area but the 3/4 height means that it doesn't dominate the site too much. Perfect for selling high turnover impulse purchases such as sandwiches, snacks and soft drinks. Designed to our **eCold** specification, the cabinet features low low-energy LED lighting and 12V maglev fans. The finish is silver painted zintec steel exterior with a stucco aluminium interior and sturdy stainless steel shelves (display model has optional mirror finish interior).
